

How to Measure the Depth of the Armhole

When creating a dress or top **without sleeves**, the depth of the armhole must be raised.

How to measure the depth of your armhole.

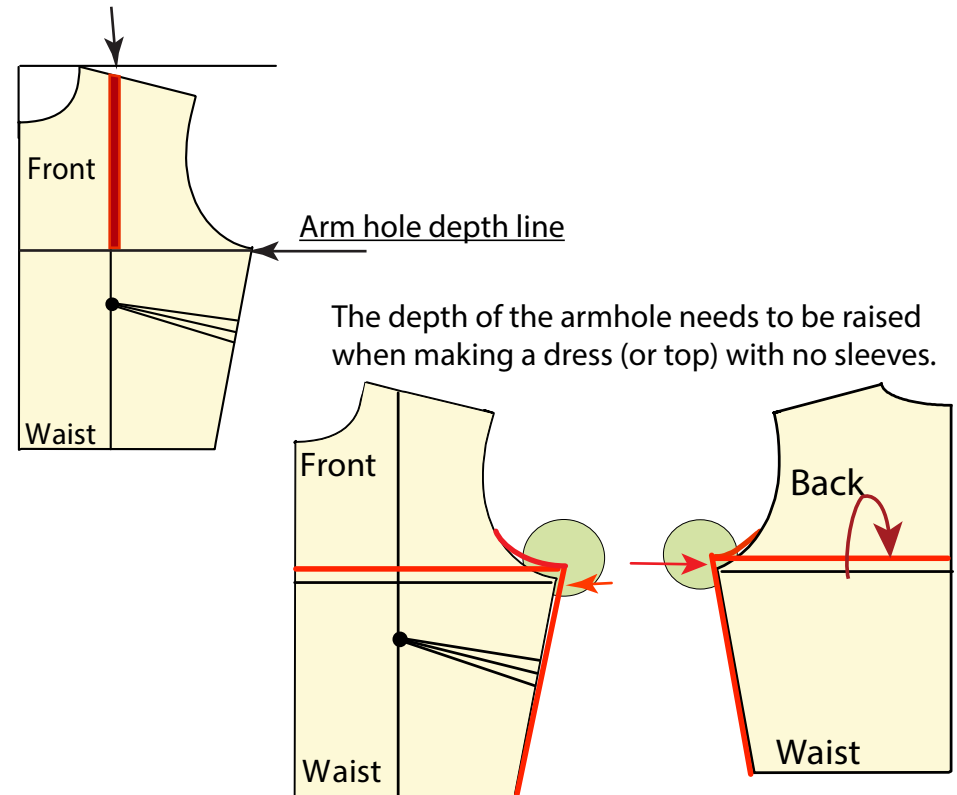

1. Get a friend to help.
2. Place a straight ruler or a long knitting needle under your arm, at least 2 cm below your arm pit.
3. Don't tuck the straight ruler *right up* into the armpit.
4. Place the straight ruler where you can imagine the sleeveless armhole should be positioned.

Measure from the middle of the shoulder line to the under arm.

How to check the arm hole depth on the pattern

Measure from the middle of the shoulder line to the arm hole depth line.

The pattern ruler automatically set the depth of the armhole for the majority of women.

Bust size, circumference, has nothing to do with the depth of the armhole

Average height of adult female is 5 foot 5 inches - 1M.67cm.
